To Whom it May Concern:

I have been privileged to know and work with Curt Cousino in excess of twenty years. I have always found Mr. Cousino to be an individual of integrity and high moral standards.

As Supervisor of Building Maintenance for the City of Canton, Ohio for the past 21 years, I have found it necessary to replace or repair a large number of roofs. Mr. Cousino has been my source of information and advice on almost every occasion.

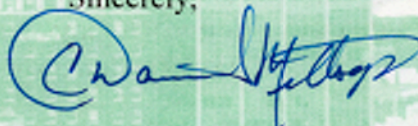

We have worked with Mr. Cousino and his company (Kenderson, Incorporated) on large and small projects many times over the years including roofing projects for the Canton Civic Center, the Street & Sewer Department, the Sears Building and City Hall. The service and commitment dedicated to each project has always been excellent.

As one responsible for spending tax dollars to maintain government owned properties it is imperative that we scrutinize most carefully where the funds are allocated. Each time that we have procured the services of Kenderson, Incorporated we have always felt that our best interest was being watched out for.

We have confidence in allowing Kenderson, Incorporated to supervise our roofing projects from spec development and bid process through completion of the punch list.

I would not hesitate to recommend Kenderson, Incorporated to anyone in need of professional roofing consultation services.

Sincerely,

C. Daniel Millsap
Building Maintenance Supervisor
